0540936851

MERN stack developer with expertise in React, Node.js, Express, and MongoDB. Skilled in Redux, Vite, and Material UI. Focused on delivering high-quality, scalable web applications and eager to expand skills in mobile development. Bilingual in English and Arabic.

Education

USTO university

Bachelor's degree Computer Science

Projects

Personal Portfolio

Present

A responsive portfolio showcasing my MERN stack projects, with modern UI design and performance optimization. It highlights my skills in React, Node.js, Redux, and more, demonstrating my expertise in building scalable, user-friendly web applications.

AHP

Present

An AHP Decision-Making App that simplifies complex decisions through criteria definition, pairwise comparisons, and priority calculation. Built with Redux Toolkit, it offers an intuitive, blue-accented design for efficient state management and decision evaluation.

ToDo App

Present

A user-friendly to-do app built with Pug.js, JavaScript, and Sass. It features task labeling, stores data in browser storage, and combines a clean, responsive design for efficient task management without a backend.

Languages

Arabic (*native*), English (*fluent*), French (*moderate*)

Core Skills

Java Script, React js, Node js, Express js, Mongo db, My Sql, Redux Toolkit, Git
